Task 1: Design your Wireframes

Welcome to this final assessment task about your Wireframe.

In this session, you will:
- Create the wireframes to understand how it will look and work.
- Identify if you need extra support from instructors.
- Clarify any questions and gaps you may have.

Take 2 hours 30 minutes to complete this assessment in your assigned groups:
- Read the Assessment Criteria (see the Assessment Rubric – Sprint 1).
- Create a Github repository to store your project.

(Note - Check out this resource to see what a good wireframe looks like):

- You will be graded by the instructor and assessed with the score defined in the assessment rubric.
